Technical Skills

Languages/Frameworks/Libraries:React-Native,JavaScript,Redux,Firebase,HTML,CSS,Reactjs

Projects

TalkToGuruJi | *React Native, JavaScript,RESTful API*

- Developed and deployed a cross-platform astrology-based mobile app using React Native, enabling users to chat with astrologers in real time..
- Designed reusable UI components and implemented custom navigation and dynamic screen rendering to enhance user experience and performance.
- Integrated REST APIs to fetch astrologer profiles, handle user authentication, and manage real-time chat sessions efficiently..
- Implemented socket.io integration to support real-time messaging, chat request acceptance, and session control features between users and astrologers..

Dukhansa Shop App | *React Native, JavaScript,Redux,RESTful API*

- Developed and implemented responsive UI screens for the Dukhansa Shop App using React Native, ensuring alignment with Figma design specifications...
- Collaborated on feature development including product listing, cart management, and navigation flow, enhancing overall user experience and functionality..
- Integrated RESTful APIs for seamless data flow between frontend components and backend services, improving app performance and reliability...

Anushaya Urban App | *React Native, JavaScript,RESTful API*

- Contributed to the end-to-end development of the Banking Agent App, focusing on improving efficiency for field agents and data accuracy....
- Collaborated with backend teams to integrate APIs for deposits, RD/FD, and ledger management, ensuring smooth synchronization of financial records...
- Enhanced user experience through responsive UI implementation and continuous performance optimization....

Experience

React Native Developer [Talentrise Technokrate Pvt Ltd]   **feb 2025 – present**

Nagpur,Maharashtra(Remote)

Developing cross-platform mobile applications using React Native.

Implementing UI components and navigation based on design specifications.

Integrating APIs and managing application state using Redux Toolkit.

Collaborating with the design and backend teams to ensure seamless user experiences.

Data annotator [Droisys India Private Limited]Noida, UP(on site)   **July 2024 – Feb 2025**

Train ML model.
Assist in collecting, processing and analyzing large datasets to support decision making process.

Achievements

- **Microsoft Azure** - Certification in Microsoft Azure AZ-900.
- **E and ICT Academy, IIT Kanpur** - Python Programming certification by E and ICT Academy, IIT Kanpur
- **TCS**-Certification in TCS YEP
